The Locker Room / CTO & Co-Founder

MAY 2019 - PRESENT - Dublin, Ireland

Building a full digital eco-system for the company, including a front WordPress website, a full-stack MERN Web Application which integrated with Stripe's API. Web Hosting setup, Email setup, continuous monitoring, bug fixing and improvements.

Hiring developers and designers to aid me with designing and developing The Locker Room's brand.

Translating requests from the CEO into new features for the application.

Providing technical support for customers.

WebSpace / CEO & Founder

MAY 2017 - PRESENT - Remote

Fully designing and developing websites and providing ongoing technical support using Javascript, PHP, WordPress, React.js & Node.js.

Specialising in what a client needs, and producing beautifully designed websites that are SEO ready.

At this point, the company has clients in Dublin, Edinburgh, Glasgow and Munich.

Together Digital / Web Developer

MAY 2018 - JUNE 2018 - Dublin, Ireland

Internship developing websites using HTML, CSS & JavaScript.

Just Eat / Customer Care Advisor

NOV 2017 - JAN 2018 - Dublin, Ireland

Providing excellent support to Just Eat customers, restaurants and delivery drivers regarding recent orders placed on the platform. Primary responsibilities included taking calls & live chats from people across the UK, solving any issues addressed and logging any issues on the companies CRM software (Zendesk).

ULearn English School / Social Coordinator

MAY 2017 - SEPT 2017 - Dublin, Ireland

Planning the social calendar for the month, managing events (equipment, logistics, locations and cost) each week, promoting such events through social media campaigns, and creating event advertisements via Adobe Photoshop/Illustrator. Monitoring general CSAT of students, and liaising with admin & teachers to improve it.

CounselPal / CEO & Founder

APRIL 2017 - JULY 2017 - London, UK

Single-handedly built a platform for students to connect with student-tutors, providing student-tutors with an opportunity to earn money on a freelance basis while helping peers. In its first 4 days, the site received 74 views with 61% of visitors returning.

Bright Network / Account Manager

JAN 2017 - APRIL 2017 - London, UK

Responsible for New Business Development across the UK. Accountability for lead and meeting generation. Confident with a range of social media and marketing techniques to connect with relevant businesses. Accurate tracking management of new contacts and company blueprinting within CRM software (SalesForce).

Uber / City Operations Expert

AUG 2016 - JAN 2017 - Glasgow, UK

Worked with the Operations team to streamline procedures by providing feedback and research. Primary responsibilities include; providing excellent in-person technical support to Uber partners (using ZenDesk) regarding existing and new product launches, onboarding new partners and providing them with training and orientation, administering documentation, preparing and providing necessary resources and delivering high-quality presentations to new partners joining the Uber platform in various locations in West Scotland, representing Uber at different events and conferences, and resolving technical issues pointed out by partners.
